## HOW TO PLAY

You receive five cards to make your best four-card poker hand. A four card straight is a straight, a four card flush is a flush, etc.

## PLAYER vs DEALER

Make bets on the Ante and Super Bonus spots. After seeing your cards, you can fold or stay in the game by making a Play wager. The Play wager must match your Ante unless you have a pair of Aces or better. If you have at least a pair of Aces, you may bet triple the Ante. The dealer qualifies with King-high or better.

**Win:** When you beat the dealers qualifying hand, your Ante and Play bets win even money.

**Push:** When the dealer does not qualify, your Play bet wins and your Ante bet pushes.

## SUPER BONUS

The Super Bonus wins when you have a straight or better. The Super Bonus pushes when you have less than a straight but you beat or tie the dealer.

## QUEENS UP

The Queens Up optional bonus bet wins when you receive a pair of Queens or better.

**Note:** Winning Super Bonus and Queens Up wagers are paid regardless of the dealer's hand.
